What We Do We build real, walkable golf courses inside climate-controlled domes — not simulators. The Chicago-West flagship is a 9-hole executive par-30 course plus a 300-yard practice facility, open 6 AM – 1 AM, 365 days a year, capitalized at \$77.0M for a Fall 2027 opening. | The Problem In two-thirds of the developed world, golf is a 5–7 month sport. Winters erase progress; simulators are screens, not golf. U.S. off-course participation (32.9M) now exceeds on-course play — yet no one lets a cold-climate golfer actually play a real course in January. | Why We Win Category creator with no direct competitor offering real indoor course play. Defended by trademark, course-design IP, and a team with municipal approvals, full design documentation, and a complete financial model. Nine revenue streams; 60%+ modeled EBITDA margins.
